Date:13/05/2026

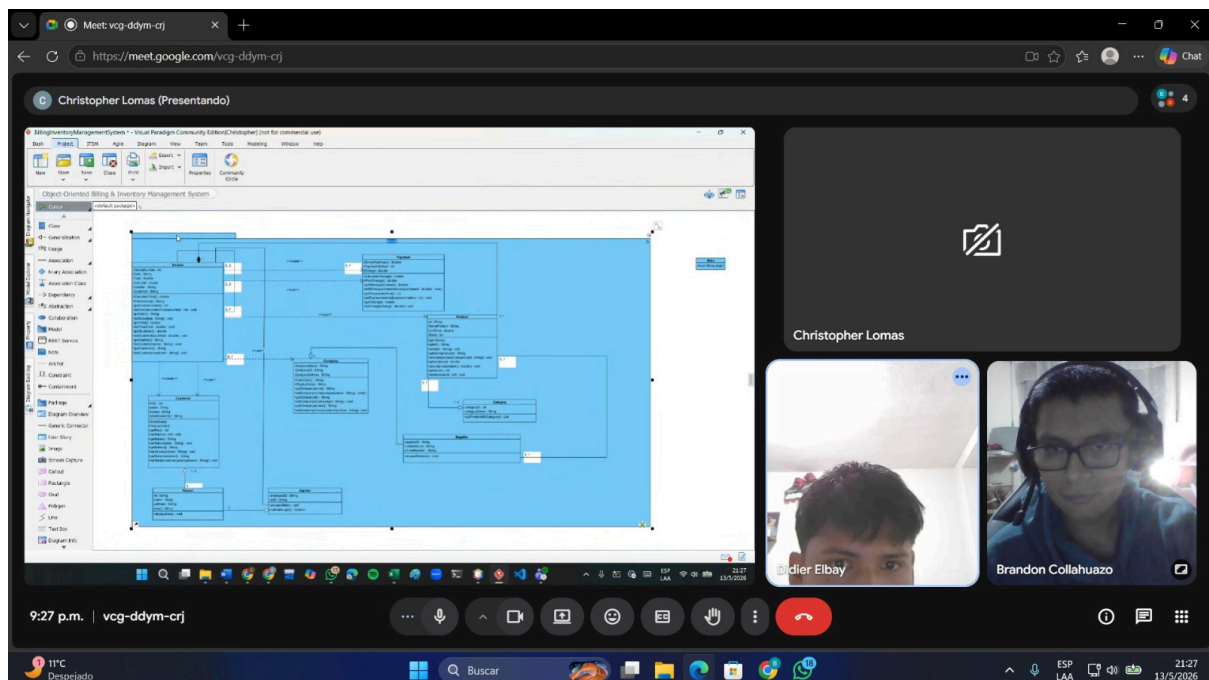

1. Evidence of the Product Backlog:

No issues were found in the Product Backlog that needed to be addressed.

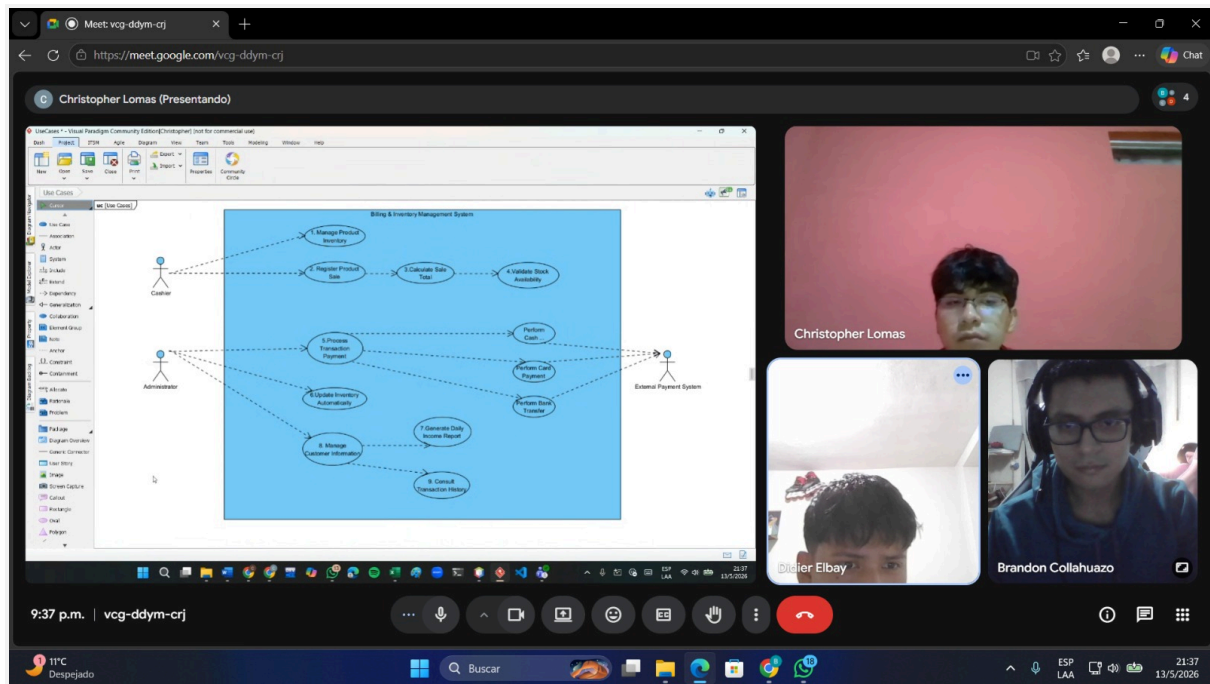

2. Evidence of the DiagramClass

The mian.js method was added, and the class diagram was placed in the model package.

3. Evidence of the UsesCasesDiagram

No errors were found in the UseCaseDiagram that need to be corrected

4. Code

The spelling and accent marks were corrected in some messages that the code displayed when it ran.

We've added the option to enter payment information

Correction of Class Containment
